

CATTLEMEN SWARMING IN LOS ANGELES

Meeting Today Of American
National Live Stock Asso-
ciation Promises To Be
Very Important.

GRAZING AND TARIFF
WILL OCCUPY ATTENTION

Many Important Questions Will
Be Threshed Out In the
Belasco Theatre.

LOS ANGELES, Jan. 25.—Who a large number of representative live stock men, practically from all states west of the Missouri river, are present at the twentieth annual convention of the American National Live Stock association will convene at 10 o'clock tomorrow at the Belasco theatre for a three days' meeting. Men prominent in the affairs of the industry will discuss many important matters relating to business and stockraising during the session. Chief among these topics are those affecting the public control of federal grazing lands and the proposal of the leather manufacturers favoring the removal of tariff on hides. The subject of tariff on wool and live stock will also be discussed. Meat inspection, freight rates, foreign markets, and the general demands by the live stock industry of congress will be taken up on different days by various members.

The tariff question will come up for a full and free discussion. The general attitude of live stock men on this subject is that they are compelled to pay higher prices for everything they buy because of protection, and that if the tariff is removed on hides it will mean that they will have to compete with the world in one of their principal products without the protection to which they are entitled. They assert that leather manufacturers would derive a benefit from the removal of tariff by being able to purchase in a free market, and sell in a protected one, and consumers would receive no benefit from the change whatever.

The matter of the use of public lands for grazing is one of dispute among the stock men themselves. A very large percentage of the delegates, however, favor federal control of these lands, and a system of leasing the lands to the owners of stock. The cattlemen say their business has been hampered by the removal of fences from the ranges by the government, while the action is said to be approved by the sheep men.

LOADED CARS HURL MINERS TO DEATH

CUMBERLAND, Md., Jan. 25.—Four men, Cleaver Knight, William Hamilton, James Cordoy, Jr., all of Franklin, and Joseph Dierette, an Italian laborer, are dead and eleven injured, several severely, as the result of an accident on an incline railway in the Piedmont & Georiet company's coal mine near Piedmont, W. Va., today.

Two cars laden with miners became uncontrolled while coasting down the incline and collided with other cars at the bottom.

FORMER GOVERNOR DIES.

OAKLAND, Jan. 25.—Caleb Z. West, former governor of Utah, died last night at the hospital here after an operation for appendicitis.

DOZEN MEN MAY DIE FROM GAS EXPLOSION

PITTSBURGH, Jan. 25.—While Superintendent Logan and a party of miners were investigating conditions in a coal mine of the Merchants Coal company at Boxwell tonight a gas explosion occurred which has already cost the life of one man and may result in the death of a dozen.

DR. DOUGLAS SPENDS DAY IN SMELTER CITY

Says News From Globe Was a
Surprise — Will Deliver a
Lecture On Arizona Mines—
Conference With Directors.

DOUGLAS, Jan. 25.—Dr. James Douglas, of New York city, president of the Phelps-Dodge company, who has been in this city looking after business interests, departs this evening for Bisbee. Dr. Douglas has been in conference here with Walter Douglas, of the Copper Queen interests; H. J. Simmons, of the Southwest; J. S. Douglas, of the Nacozari interests; C. E. Mills, of the Detroit Copper company, of Morenci, and E. L. Carpenter, of the Dawson Fuel company. It has been a most busy time for the doctor.

Before he returns to the east, Dr. Douglas plans to deliver illustrated stereoscopic lectures either here or in Bisbee. His subject will be "The early history of the copper mining industry in Arizona, and the growth of the Copper Queen mine."

Speaking of the general situation, he said: "I have noticed a depreciation in the price of copper, but I had expected it. I attribute it to the present enormous output over the country. Speaking of the situation in Globe he said: "Were it not for the walking delegates there would be no trouble at Globe. The news of trouble was a surprise."

Regarding the new road from Douglas to Cortland, he put himself on record with: "This road we expect to reach to completion as rapidly as possible. It will, however, go no farther than Cortland, and it will be built for the purpose of handling the output of ore."

SAVINGS BANK DISCUSSED.

WASHINGTON, Jan. 25.—Postal savings banks and the omnibus claims bill were before the senate today for an amendment but no substantial progress was made on either measure. An amendment was made to the postal bill, limiting to \$500 the amount of deposits of any one person, and fixing the rate of interest at 2 per cent with the understanding that the amendment would be subject to further change by the senate. Senator Carter, in charge of the measure, announced that he would keep it before the senate on every opportunity until disposed of.

ANOTHER \$500,000 LOSS FROM FLOOD WATERS

ANTIOCH, Cal., Jan. 25.—The Bethel tract, or Sand Mountain district, as it is commonly known, lying south of Jersey Island, on the main land, and containing 49,000 acres, is the latest reclamation area to succumb to the flood waters. Black Cross levee, between it and the Gordon place, broke last night, and the entire district is being flooded. This is one of the oldest reclamation tracts in the delta region, and the loss will reach \$500,000.

Partners were engaged in dairying and vegetable raising, there being a very large acreage of asparagus, celery and alfalfa.

WEATHER REPORT.

WASHINGTON, Jan. 25.—Forecast for Arizona: Fair Tuesday and Wednesday.

MINING CAMPS ARE ISOLATED BY SNOW

DURANGO, Jan. 25.—Mining camps in the San Juan districts are in serious straits owing to the storm. Railroad service is hopelessly paralyzed and prospects of soon getting supplies into Silverton and other camps are far from bright.

It is impossible to ascertain the condition of the tracks as snow is piled up on them so high that passage is out of the question.

CONGRESSMEN PRAISE WIRELESS

WASHINGTON, Jan. 25.—Legislation affecting the District of Columbia was considered by the house today. An interesting feature of the day was a tribute paid by Houstelle, of Illinois, to the heroism of John R. Rines, the wireless operator aboard the steamship Republic recently in the collision with the Florida.

STORM WARNINGS FLY ON COAST

SAN FRANCISCO, Jan. 25.—The storm still overhangs the coast of California, and has caused high southeast winds along the coast from Point Conception northward.

The rainfall has been heavy in the Santa Clara valley and bay section by relatively light winds from San Luis Obispo. Southeast storm warnings are displayed along the coast.

PEBATE FINE STICKS.

PITTSBURGH, Jan. 25.—The hearing of the government suit against the Harriman lines, which was to have been resumed today, was postponed until tomorrow, on account of the absence of the attorney for the government. The suit is under an anti-trust law to prevent the merging of the railroad companies west of the Mississippi.

PIRATES ATTACK FISHERS.

MANILA, Jan. 25.—Word has been received here of an attack on the Farang pearling fleet by Moro pirates on January 20. Seven of the pearl fishers were killed in the fight. The insular government dispatched several patrol boats to the scene of attack with instructions to search for pirates.

REBATE FIN ESTICKS.

WASHINGTON, Jan. 25.—The petition of the Chicago & Alton rehearing case, wherein the two officials are fined \$50,000 for rebating the Kansas City packers, today was denied by the supreme court.

PARISIAN LINOTYPERS OUT.

PARIS, Jan. 25.—All linotypers on Paris newspapers struck tonight for an increase in wages. The publishers were expecting the strike and had made arrangements for hand compositors.

ORDER REIGNS IN THE GLOBE MINING CAMP

A Few Deputies Have Been
Sworn In, But Have Nothing
To Do—Union
Official Arrives.

MEETING OF MINERS
DUE THIS MORNING

Belief General That Trouble
Will Be Speedily Settled
By Wills Dismissal.

(Special to the Review.)
GLOBE, ARIZ., Jan. 25.—What action is to be taken by the Globe miners union concerning the situation at the mines of the district will be decided at a meeting to be held at 9 o'clock tomorrow forenoon at the Dreamland theatre, the largest hall in the city.

Ed Clough, of Denver, the executive board member of the Western Federation of Miners for this district, arrived in Globe on this evening's train, and was at once escorted from the railroad station to the miners' union hall at Broad and Pine streets by a numerous delegation from the union.

A meeting of the union had been called for this evening, but no great was the crowd of members that it was impossible to admit everybody, and the meeting was adjourned to the Dreamland theatre at 9 o'clock tomorrow.

The mines closed down are the Old Dominion, the Miami, the Arizona Commercial, the Superior & Boston, Globe Consolidated and the United Globe. Some of the mines are still running, among them the Illinois, the Inspiration and the Black Warrior, but all of them have signified their readiness to close down as soon as called upon to do so, or whenever the situation warrants.

The day passed off quietly, with all concerned content to await events. Friday night of last week a telegram had been sent by the officials of the miners' union to the federal headquarters at Denver, giving information as to the strained relations between the Old Dominion and the miners. Today it was expected that this telegram would bring President Moyer of the federation to town, but Ed Clough, the district board member, came in his stead.

The arrival of Professor Douglas, of the Phelps-Dodge syndicate was also expected, it being said that he was coming on a special train, but in the afternoon railroad officials declared that they had no knowledge of the coming of any special train, and Professor Douglas did not come on the regular train.

There has not been the least sign of disorder. A few extra deputies have been sworn in by the sheriff, and are on duty at the Old Dominion property, but their boat is a lone one. The shut down has naturally had a dampening effect on business here, but there is a distinct tone of optimism, and the settlement of the controversy by the dismissal of Wills at tomorrow's meeting is confidently looked for in some quarters.

The mine owners are still emphatic that Wills is their only grievance, and that as soon as he is removed from sight the mines will all resume operations.

JUDGE BALLY SUICIDES.

ALBUQUERQUE, Jan. 25.—A special from "Lafayette, N. M., states that Judge William H. Bally, one of the original promoters of the Big Four road and formerly a prominent figure in eastern financial circles, killed himself with a revolver in a lonely cabin in the mountains two days ago.

NO BOOZE FOR PRISONERS.

WASHINGTON, Jan. 25.—The attorney general has issued a circular to the United States marshals warning them that under no circumstances must United States prisoners be allowed to have intoxicants, except on the advice of a physician. The circular threatens summary punishment of any official so offending.

HOUSE IS FAVORABLE. SENATE WILL OPPOSE.

(Special to the Review.)
WASHINGTON, Jan. 25.—The statehood bill is now being printed and will be introduced in the house on Wednesday by Mr. Hamilton, and a day later on will be set for consideration. Practically all opposition in the house has disappeared, and it is expected the bill will pass that body by a large majority.
